CR-6 PLINTH  
1-3/4 X 4"

PB-2 PLINTH  
1-1/8 X 4-1/4"

### Helpful Tips

- Tall doors such as 8'-0" look better with 3-1/2" or wider casing.
- Choose casing that is slightly thicker than your base.
- Match your casing around windows or under the window stool for a consistent look.

## — Combination Moulding Ideas —

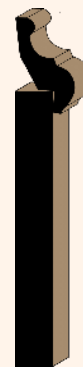

### Helpful Tips

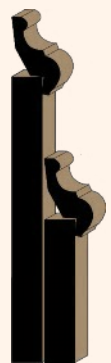

- Combine Crown, Base and Panel Moulds to create a larger and more detailed look on high ceilings.
- Use 1x6 and 1x8 square edge boards to achieve a taller and cleaner base. Use a Panel mould to add a decorative finished cap.

DM-27 ●  
2-1/8"

DM-134 ●  
1-1/2"

PM-7 ●  
1-5/16"

**Helpful Tips**

- Use Chair Rail to add a decorative break between the top and bottom third of a wall.
- Plaque Mould has a flat back and is great for adding decorative squares to a wall or flush interior door.
- Panel Mould is great for covering the raw edge of plywood paneling or to cap off a square Base edge.

A Main Street Exclusive!

## We Offer Free Custom Door Design Assistance to our Builder Customers!

Main Street Millwork can bring your home buyer's vision for their new custom door to life in minutes with our proprietary full color door rendering process! Communicate your customer's vision with us and we'll take it from there. We will create a full color artistic rendering along with details, pricing and your company's name and logo to present to your home buyer. If your customer loves it like we know they will, we will create a CAD drawing for final approval. Once approved, your customer's special door will be created with exacting detail and quality.
